My Pet Cat

You are so lucky to have a pet cat, they are fun animals who can be really cheeky sometimes! With any pet you will need to know how to care for them to keep them happy and healthy.

Some cats can be really playful, some can be lazy, some are loud and some are quiet.... It's easy to see that like people, each cat is different.

We wanted to help you and your pet become friends and enjoy being around one another.

To do this you will need to learn to understand your cat.

The Vetsure Kids Golden Rule

A really good way to understand our cats is to think of your friends. Some of your friends may like playing sports, while other may prefer to paint pictures.

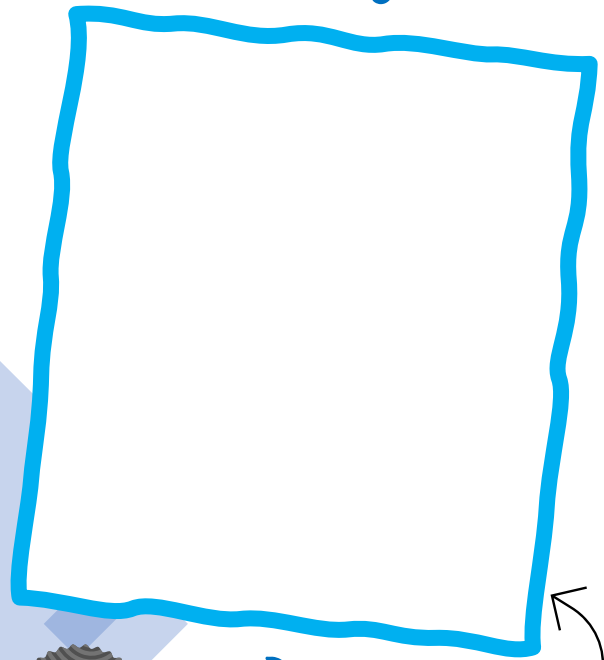

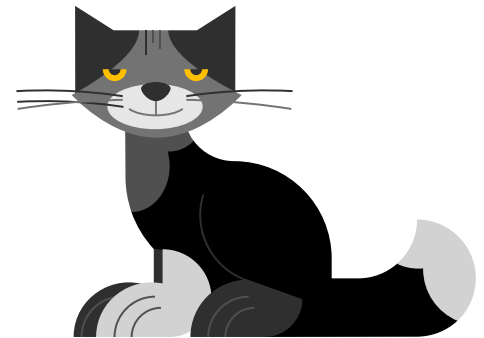

Cats are the same, they don't play sport or paint pictures, but some cats may like sleeping all the time and some may like climbing trees. Every cat is different!

Cats may be all very different but there is one rule that can be used for all cats:

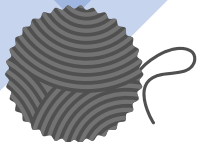

"If you should not do it to a friend at school, then you should not do it to your pet."

What this means is, if you would not pull your school friend's hair, then you also should not pull your cat's tail.

Remember, it is important to be kind to our pets.

Things to Remember?

What can you do to care for your cat?

- ✓ All pets need food and water - you can make sure your cat has fresh water every day and that you feed them the right kind of cat food. Make sure not to feed your cat human food as it can make them quite poorly
- ✓ Your cat will really love having a place to snooze or hide away. If your cat is in their favourite hiding spot then they may be feeling a bit scared or just need some time to themselves, so be sure to give them space and leave them alone.
- ✓ Some cats may not like being picked up and cuddled, so try not to grab them or hug them too tight. The only real way your cat can explain that they are unhappy is by scratching or biting, and they wouldn't want to hurt you by mistake just because they are uncomfortable with being picked up.
- ✓ Never hiss at your cat, you may think you are joking around with them, but to a cat it can be very upsetting. Remember we must always be kind to our pets.

When your cat is asleep, try not to disturb them. Even cats need quiet time sometimes.
