Welcome to Vetsure

Thank you for entrusting us with your pet's care. At Vetsure, we understand that your pet is a cherished member of your family. We are passionately committed to helping you provide the protection they deserve.

Our story

I founded Vetsure in 2009 after years as a practising vet. I saw firsthand that pet insurance was often too complex and didn't always support the long-term care pets need. I wanted to create a better way—one based on collaboration between vets and insurers, focusing on the lifelong protection most pet owners were looking for.

I am incredibly proud of what our team has achieved since then, but we will never become complacent. We are constantly striving to improve the care we offer for you and your pet.

Our promise to you

Lifelong support: We only offer "Lifetime" policies, designed to support your pet's treatment throughout their life.

The "family" test: We aim to treat every customer and pet as we would want our own families to be treated.

Direct and fast: We work to settle claims quickly and can pay your Vetsure-accredited vet directly, so you aren't left with financial stresses at a difficult time.

Human Connection: Our team is encouraged to spend as much time as you need on the phone—whether you have a query or just want to tell us about your pet.

Please take the time to read this booklet and familiarise yourself with your cover. If you have any questions, we are always here to help.

Thank you for joining the Vetsure family.

Important Information

This policy booklet sets out the full terms and conditions of your pet insurance contract. Please read it carefully.

Key documents and contract of insurance

Your full insurance contract is made up of these four documents, which must be read together:

Policy Booklet (this document): Contains all the terms, conditions, and exclusions.

Policy Schedule: Lists your personal details, your pet(s), the start date, your chosen level of cover (e.g., Premier/Premier Plus), the benefit limits and premium you must pay.

Insurance Product Information Document (IPID): A regulatory summary of the cover's key features.

Statement of Fact: The official record of the information you provided to us when applying.

In return for payment of the correct premium(s), we agree to provide cover under the sections you have chosen to include as detailed on your Schedule. This is, as always, subject to the terms and conditions detailed in your policy booklet.

Underwriter & Administrator: This policy is underwritten by Atlas TVIS. It is arranged and administered by Vetsure, who is authorised to deal with you on Atlas TVIS's behalf.

Is this policy right for you?

Our products meet the need of pet owners seeking insurance against the unexpected costs of veterinary treatment.

Our 'Premier' and 'Premier Plus' policies provide cover for both injuries from accidents and illness as detailed in this document.

Please note that this policy does not cover every circumstance or expense. Exclusions apply and are detailed in each section and in the General Exclusions part of this document.

It is up to you to ensure the level of cover you selected is appropriate for your personal needs, financial situation, and objectives. Vetsure cannot advise you on this matter.

Your policy responsibilities

The cover we provide is based entirely on the information you gave us when you applied (as detailed in your Statement of Fact).

Updating Your Information: If any information in your Statement of Fact is incorrect or changes at any point (e.g., your address, or a change in your pet's circumstances or vet clinic), you must notify Vetsure immediately.

Consequence of Non-Disclosure: If you fail to notify Vetsure of a change, your policy may become invalid (in full or in part) and may not provide the cover you require.

Payment Default: If your premium payment fails, you have 21 days to contact us and arrange payment. If payment is not received within this time, your policy will be cancelled immediately from the date payment stopped. No benefits will be paid after this cancellation date.

Where does cover apply?

Cover is provided for claims arising while your pet is located in the United Kingdom (England, Scotland, Wales, Northern Ireland).

Overseas Travel: Cover is only extended outside the UK as detailed in the optional 'Overseas Travel' section. Cover under this section is provided for claims arising while your pet is located in the European Union (EU) member countries, the Channel Islands, and the Isle of Man.

Need help?

If you have any questions regarding your policy, please contact Vetsure directly on 0800 050 2022.

Definitions

Whenever **you** see a word in **bold** it has the meaning shown below.

Accident – A sudden, unexpected event that causes an **injury to your pet**.

Atlas TVIS, we, our, us – Atlas Insurance PCC Limited (hereinafter referred to as “Atlas” in respect of its TVIS Cell, a protected cell of Atlas). This is the insurance company that underwrites **your** policy.

Please refer to the ‘Other Important Information/About the Insurer’ section for full details.

Benefit limit – The maximum amount **we** will pay for a claim under each applicable section. The amounts are shown on **your Schedule**.

Bilateral condition – A **condition** that affects both sides of **your pet’s** body (for example: ears, eyes, knees, cruciate ligaments). For insurance purposes, these are one **condition** and the cost of their **treatment** will come out of the same **benefit limit**.

Clinical signs – Any changes in **your pet’s** normal health, behaviour, or appearance.

Cover start date – The date **your** insurance begins, as shown on **your Schedule**. Reference to ‘initial cover start date’ is the date the policy first started (incepted).

Please also refer to the ‘Spotlight’ section on page 46. This provides information about how **cover start date** will be interpreted if you change your level of insurance cover.

Complementary medicine - Physiotherapy, hydrotherapy, acupuncture, chiropractic therapy, herbal or homeopathic medicine, and behavioural therapy – but only if carried out by a qualified professional and recommended by a registered **vet**.

Condition –

- any **injury** caused by a single **accident**
- or
- any **illness** or **clinical sign** that has the same diagnosis or is caused by the same underlying problem.

This applies even if the **condition**:

- affects different parts of **your pet’s** body
- keeps coming back or ‘flares up’ over time.

For insurance purposes, any complications resulting from an **injury** or **illness** or their **treatment** are part of the same **condition** and the cost of their **treatment** will be taken from the same **benefit limit**.

The ‘Spotlight’ section on page 46 provides further explanation and handy examples of related **conditions** and how these are handled for insurance purposes.

End date – The date **your** policy ends. This could be because:

- **your pet** dies
- **you** stop paying your premium
- **you** cancel the policy
- **we** cancel or don’t renew the policy.

Please refer to the ‘Cancellation and Amendments’ section for more details.

Excess (Veterinary Fees section) – The amount **you** must pay towards each unrelated **accident** or **illness**. The amount is shown on **your Schedule**.

Excess (Public Liability section) – The amount **you** must pay towards each unrelated **incident** relating to loss or damage to property. The amount will be on **your Schedule** if **you** have chosen to include Public Liability cover.

Holiday – A trip **you** take for pleasure that starts and ends at **your** home. The optional Overseas Travel cover includes **holidays** taken with **your pet** in the European Union (EU) member countries, Channel Islands, and Isle of Man.

Immediate family – **Your** parent, sibling, child, spouse, life partner, or civil partner.

Incident – (For optional Public Liability cover only) An event, or chain of events, which arose from one original cause.

Injury – Physical damage caused to **your pet’s** body by an **accident**.

Market value – The typical price for a **pet** of the same age, breed, and sex at the time of the claim.

Pet - The cat(s) or dog(s) named on **your Schedule**.

Policy period – A continuous 12-month period starting from your initial **cover start date** (and each renewal after that).

Pre-existing condition –

- any **condition** or **clinical sign** that began before the initial **cover start date**. This includes anything that existed in any form before cover began

or

- any **illness** or **clinical sign of illness** that began during the **waiting period**.

Schedule – The document that shows **your** and **your pet's** details, and the cover included in **your** policy.

Treatment – Any care given by a **vet** or qualified professional (consultations, tests, scans, surgery, medication, nursing care, etc.).

Unlicensed medication – Medication that has not been officially licensed for the **condition** it is treating.

Vet – A veterinary surgeon registered in the UK. (For optional 'Overseas Travel' cover, this also includes veterinary surgeons registered in the European Union (EU) member countries, Channel Islands, and Isle of Man).

Veterinary fees – Normal and reasonable charges made by a **vet** for **treatment**.

Vetsure – The company that sells and administers this insurance on behalf of **Atlas TVIS**.

Please refer to the 'Other Important Information/About the Administrators' section for full details.

Vetsure preventative care vouchers – Vouchers that **you** can use at participating **Vetsure** clinics for preventative care. This will be listed on your **Schedule** if **you** included this optional cover in **your** policy.

Waiting period – The first 14 days of your policy. **We** do not cover any **illness** that starts or shows **clinical signs** during this period.

How does this apply to 'upgrades'?

If **you** change **your** policy to increase **your** Veterinary Fees limit, a new 14-day **waiting period** applies to the extra cover only. You can still claim during this period, but only up to **your** previous policy limits.

After 14 days, **your** new, higher limit takes full effect.

When does the **waiting period** end?

We count the **waiting period** starting from the day your cover (or upgrade) becomes active.

Example: If your policy starts on the 1st of the month the **waiting period** runs from the 1st to the 14th. Full **illness** cover begins on the 15th.

Please see the 'Spotlight' section on page 46 for more details on changing **your** cover level.

Your vet – The **vet** or clinic you normally use. This also means any other clinic **you** take **your pet** to (e.g. for **treatment** at a referral clinic).

Your Vetsure clinic – Any vet clinic accredited by **Vetsure** (see www.vetsure.com for a list).

You, your – The person named as the policyholder on the **Schedule**. For the optional Public Liability cover, this can also include someone else looking after **your** dog with **your** permission (as long as **you** are not paying or otherwise rewarding them).

Defined terms appear in **bold** throughout this document.

Veterinary Fees

1.1 Cover

We will pay for **treatment your pet** needs as a result of an **accident** or **illness** during the **policy period**. **We** will only pay up to the **benefit limit** shown on your **Schedule** for each unique **accident** or **illness**.

The **benefit limit** for **complementary medicine** and special diet is taken from the total 'Veterinary Fees' limit, not extra. **You** can find details on **your Schedule**.

If **your pet** has a **bilateral condition** (a problem on both sides of the body, like both eyes) they will be treated as one **condition** for insurance purposes.

PLEASE NOTE: **You** can ask the **Vetsure** claims team for "pre-authorisation" before **treatment** starts – and **we** strongly encourage **you** do so if costs are likely to exceed £1,000. Whilst **Vetsure** will be unable to guarantee the outcome of any claim prior to a claim being submitted and reviewed, this helps you know if the claim is likely to be covered.

1.2 How we assess your vet's fees

When **you** make a claim, we review it to make sure the costs and **treatments** are reasonable.

We may ask **our** own veterinary advisor to review **your** claim if:

- the fees **your vet** charged seem higher than the typical cost for that **treatment** or
- the **treatment your pet** received seems unnecessary or more extensive than the standard **treatment**.

If **our** veterinary advisor finds that the fees are higher than usual, or that the **treatment** was excessive, **we** will only pay the amount they consider reasonable and standard for the **treatment your pet** needed.

1.3 Special diet

We cover the cost of special diets in two specific situations, up to the limit shown on **your** policy's **Schedule**:

1. While **your pet** is in the hospital (100% cover)

If **your pet** is hospitalised for an **illness** or **injury**, **we** will pay the full cost of any food the **vet** recommends to help their recovery while they are admitted.

2. To treat a specific **condition** (50% Cover)

We will pay 50% of the cost for therapeutic food if:

- it is developed to treat a specific medical **condition** or
- it is used to replace medication or reduce the amount of medication **your pet** needs.

Food used to prevent health problems, for weight loss or weight management, or dental hygiene (cleaning teeth) is NOT covered.

1.4 Exclusions

The following are excluded from cover:

1.4.1 pre-existing conditions:

- any **condition** or **clinical sign** that began before the initial **cover start date**. This includes anything linked to something that existed before cover began or
- any **illness** or **clinical sign of illness** that began during the **waiting period**).

Our 'Spotlight' section starting on page 46 provides further detail about how **your cover start date** will be interpreted if **you** decide to change **your** policy's level of cover.

PLEASE NOTE: If a **condition** that first shows **clinical signs** within the **waiting period** is accepted by **us** on the basis that it was originally considered to be the result of an **accident** or **injury**, but is later determined to be the result of an **illness** instead, no further costs will be payable for this **condition**.

1.4.2 dental or gum **treatment**, unless it is to treat:

- an **injury** caused by an **accident**
- a mass or tumour in the mouth.

We will not cover crowns or root canal procedures under any circumstances.

1.4.3 routine neutering (spaying or castration). This includes spaying to prevent false pregnancy and castration for retained testicle(s). **We** will not cover chemical castration under any circumstances.

Exceptions **we** will cover:

- if **your pet** had retained testicle(s) and was 12 weeks old or younger when the policy started, **we** will cover the cost of castration
- if a health problem is found during a routine neutering, **we** will cover the costs of treating that problem (as long as it's something **your** policy normally covers). But **we** won't pay for the neutering operation itself
- **we** will also pay for neutering if it is needed to treat an **illness** or **injury**, not just for routine or preventive reasons.

1.4.4 routine or investigative lab tests unless:

- **your pet** already shows **clinical signs**, and the test is to help diagnose **your pet**
 - or
 - **your vet** recommends a pre-op blood test because **your pet** is senior in age. These are blood tests done before **your pet** has an anaesthetic or sedation.
- 1.4.5 routine or cosmetic **treatments**, such as:
- vaccinations
 - dew claw removal for preventive reasons
 - grooming, de-matting, nail clipping
 - ear cropping or tail docking
 - parasite treatments (fleas, worms, ticks, mites, etc.).
- This also means **we** will not cover complications that are linked to any of the above.
- 1.4.6 breeding-related costs including infertility **treatment**, pregnancy, birthing, Caesarean Sections, or other assisted births.
- 1.4.7 **treatment** given after the policy **end date**.
- 1.4.8 claims submitted more than one year after the claimed-for **treatment** started.
- 1.4.9 costs for euthanasia (putting **your pet** to sleep) or any **treatment** for **injury** needed because **your pet** has shown vicious tendencies or behaviour.
- 1.4.10 extra charges (“surcharges”) for:
- out-of-hours or emergency services
 - consultations outside published consulting times
 - house calls or mobile veterinary services
- unless **your vet** agrees it was an emergency or essential for **your pet’s** health.
- 1.4.11 extra costs due to **your** personal circumstances (e.g., **you** could not get to the **vet** during normal consulting hours, or **you** did not order medicine in time and incurred additional charges as a result).
- 1.4.12 costs for euthanasia (putting **your pet** to sleep) for financial reasons.
- 1.4.13 cremation, burial or postmortem costs.
- 1.4.14 claim administration costs, such as fees for completing claim forms or providing medical history.

We will, however, cover professional administrative fees applied to support referral of **your pet** to another clinic or specialist.

- 1.4.15 everyday costs like food, housing, beds, or **treatments** that are just for **your pet’s** general wellbeing.
The only time **we** will cover food is detailed in the ‘Veterinary Fees – Cover’ section above.
- 1.4.16 any **treatment** above the **benefit limit(s)**.
- 1.4.17 costs for sprays, plug-in diffusers, collars or other devices intended to reduce **your pet’s** stress or otherwise alter their behaviour.
- 1.4.18 any other costs that are indirectly caused by the event which led to **your** claim, unless specifically stated as covered under this policy.
- 1.4.19 **unlicensed medication**, unless your **vet** can confirm it has proven benefit for **your pet’s condition**.
- 1.4.20 tests done for the academic interest of **you** or **your vet**, or to confirm a diagnosis that would not change the **treatment** given.
- 1.4.21 costs of treating false pregnancy if **your pet** has already been treated for two or more previous episodes.
- 1.4.22 any costs associated with prosthetics (artificial body parts). However, **we** will cover replacement of hips, elbows, or knees.
- 1.4.23 stem cell/gene therapy or organ transplants of any kind.
- 1.4.24 the **excess** and any co-payment shown on **your Schedule**.
- PLEASE NOTE:** If **your pet** is 8 years old or older, a co-payment applies to every claim for Veterinary Fees, Special Diet and **Complementary Medicine**. This co-payment is in addition to **your excess** where this is due. The co-payment is 15% of the remaining cost after we have taken off your excess and any other deductions (if these apply). Please check **your policy Schedule** for full details.
- 1.4.25 any postage and packaging costs.
- 1.4.26 hospitalisation (keeping **your pet** at the vets) for **your** convenience.
- 1.4.27 **treatment** that has not yet happened (even if **you** already paid for it).

- 1.4.28 equipment purchase or hire costs, such as cages, crates, glucose monitors, heat pads, or behavioural training tools.
- 1.4.29 costs that arise because:
 - **you** did not follow **your vet's** instructions (including for aftercare) or
 - **you** gave **your pet treatment** that **your vet** did not ask **you** to give.
- 1.4.30 anything related to punitive training tools or methods (e.g. prong collars, shock collars).

- **your pet** dies because of an **accident** or **illness** or

- 2.2.8 death linked to breeding, pregnancy, or giving birth (natural or assisted).
- 2.2.9 death caused by or linked to prosthetics (artificial body parts). However, **we**

Spotlight

Shining a light on some of the more complicated concepts and terms within your policy.

We realise that there is a lot to take in when you first open your policy booklet! Some of the terminology may be unfamiliar or specific to pet insurance. The purpose of this section is to provide additional information, and examples, of some of the more complex topics. Look out for the 'lightbulb' symbol in the policy wording as this will highlight that more information is available here.

The 'Spotlight' section does not form part of your policy wording terms and conditions and is intended to be supplementary guidance. Don't forget though, if there is anything you are not clear on – or you need help with how your policy applies to your pet and their health specifically - please call us and we will always try to help.

Bilateral Conditions

Bilateral conditions are conditions affecting body parts that your pet has a pair of. For example, ears, eyes, knees, hip joints. When we are applying our terms and conditions, we consider bilateral conditions to be ONE condition. This is the way the policy works rather than it necessarily being scientific fact, so your Vet may feel the conditions are not technically related, but the policy wording requires us to consider them as such.

Example 1: *My dog, Hugo, has a Premier Plus policy (£5,000 per condition per year). He has unfortunately been diagnosed with the same condition in both of his knee joints. How is the Veterinary Fees Benefit Limit applied?*

In this scenario, Hugo's condition is considered 'bilateral'. As such, there will be £5,000 available in each policy period (year) to treat the condition in BOTH knee joints. Remember though, the Benefit Limit for this condition will be fully "re-charged" each time you renew. Furthermore, our Veterinary Fees excess is applied once per condition. As Hugo's knee problem is considered as 'one condition' the excess would only be due when the first claim for it is submitted – not 'per condition per year' or 'per leg'.

Example 2: *My cat, Daisy, had an ear infection just before I took her policy out, but it was only in her left ear. Would that mean her right ear won't be covered?*

We will carefully consider Daisy's medical history in this case. If this indicates an ear infection in the right ear is the same as or related to the condition she had in her left ear before the policy started (a 'pre-existing condition') it would not be covered as the condition is then considered to be bilateral.

Related Conditions and Complications

It is important to understand how we handle related conditions and complications when we apply our Policy Wording and Benefit Limits. Sometimes, our approach may not completely align with the clinical interpretation of your vet – which we, of course, fully respect – but is required in order to apply our terms and conditions in a fair and consistent way.

First, let's remind ourselves what we mean when we talk about a 'Condition' (as detailed in our Definitions):

any **injury** sustained during or resulting from a single **accident**; or

any manifestation of an **illness** having the same diagnostic classification or resulting from the same disease process regardless of the number of incidents and/or areas of **your pet's** body affected.

Here are some examples of what this means in terms of related conditions or complications. Related conditions include those that are likely to reoccur over time – sometimes with an extended period in between occurrences.

Example 1: *Teddy the Bichon Frise has an ongoing illness condition requiring constant medication. The condition was diagnosed before his owner's policy started. As such, this illness is classed as 'Pre-Existing' and not covered. Unfortunately, Teddy develops an adverse reaction to his medication. Treatment for this reaction would not be covered as it is RELATED to and a COMPLICATION of the pre-existing condition.*

Example 2: *Fleur the Afghan Hound suffers from repeat ear infections (otitis externa) that flare up every six months or so and require ear drops. Each occurrence of this ear infection is considered to be related as it has "the same diagnostic classification...regardless of the number of incidents" (as per our Definition of Condition).*

As such, the ear infection is handled by us as a single condition. As Fleur has a Premier Plus policy, A Veterinary Fees Benefit Limit of £5,000 is available to treat the ear infections every year the policy is in force. Furthermore, Fleur's owner only has to pay

the relevant Vet Fees Excess once for this condition – not each time it occurs (even if the condition spans multiple policy years).

Example 3: *It's Fleur from Example 2 again! This time, she's had a particularly annoying reoccurrence of her ear infection and she's been rigorously shaking her head and scratching her ears as a result. This has resulted in a related (or secondary) condition called Aural Haematoma – a swollen pocket of blood that forms in the ear flap as a result of tiny blood vessels busting during the shaking and scratching. Treatment of the aural haematoma is considered part of the 'Ear Infection' claim as it has resulted from it. Luckily, Fleur's owner still has Benefit Limit available for 'Ear Infection' to cover this and is not required to pay another excess.*

Changing your level of cover

Here at Vetsure we want you to be confident you have the right level of cover for your pet – both when you first set up a policy and on an ongoing basis. If your requirements change you might decide to change your pet's level of cover. This guide explains the options available to you, any restrictions in place and helps illustrate the implications of the changes.

Option 1 – 'Upgrading' or 'Downgrading' your policy type.

With this option you can choose to change the type of policy your pet has by 'upgrading' or 'downgrading'. For example, if you have an Accident Only policy you might choose to 'upgrade' to one of our policies that covers both injuries resulting from accidents and illness: 'Premier' or 'Premier Plus'. Conversely, you might decide that you don't need as much cover and choose to 'downgrade'.

Restrictions

- You can 'upgrade' your policy type at any point until your pet reaches their 10th birthday. There is no upper age limit applied for 'downgrades' in policy type.
- If you upgrade your policy type a new 14-day 'Waiting Period' will apply from the effective date of the change. Conditions starting within this Waiting Period will be subject to the Benefit Limits and terms and conditions in force before the upgrade came into effect. Please also refer to our Definition of 'Waiting Period'.

Example 'upgrade'

Policy 'upgraded'

Premier (£2,000 per condition per policy year)	Premier Plus (£5,000 per condition per policy year)
Pet diagnosed with allergic skin condition whilst this level of cover is in place.	Benefit Limit for this allergic skin condition remains £2,000 per policy year as the condition started before the upgrade date.
	Pet diagnosed with cruciate disease after the upgrade date and new 'Waiting Period' for illness has passed. Pet has never previously shown any clinical signs of cruciate disease. Benefit Limit for cruciate disease will be £5,000 per policy year as unrelated to the skin condition that arose before the upgrade.

Example 'downgrade' from Premier (accident and illness cover) to 'Accident Only'

Policy 'downgraded'

Premier (£2,000 per condition per policy year)	Accident Only (£2,000 per accidental injury condition per policy year)
Pet diagnosed with allergic skin condition	The allergic skin condition is no longer covered as the policy only provides cover for accidental injury after the downgrade date. This is regardless of whether the condition was accepted under the Premier policy.
	Pet is involved in a road traffic accident after the downgrade date. Benefit Limit for this will be £2,000 for this condition per policy year.

Option 2 - 'Topping-up' your Veterinary Fee Benefit Limit on your existing policy

With this option you can choose to keep your existing policy type but change solely the Veterinary Fees Benefit Limit by 'topping-up'. For example, if you have a Premier policy (which comes with a Vet Fees Benefit Limit of £2,000 per condition per policy year as standard) you might choose to top this up to £3,000 per condition per policy year.

Top-up options available

Premier (£2,000 per condition per policy year)	You can top-up either £1,000 or £2,000 (i.e., up to a maximum £4,000 per condition per policy year).
Premier Plus (£5,000 per condition per policy year as standard)	You can top-up either £1,000 or £2,000 (i.e., up to a maximum £7,000 per condition per policy year).

Restrictions

- This option is only available on 'Premier' and 'Premier Plus' policy types.
- You can 'top-up' your Veterinary Fees Benefit Limit at any point until your pet reaches their 10th birthday. There is no upper age limit applied when removing or decreasing a top-up.
- If you top-up your cover a new 14-day 'Waiting Period' will apply from the effective date of the change. Conditions starting within this waiting period will be subject to the Benefit Limits and terms and conditions in force before the top-up came into effect. Please also refer to our Definition of 'Waiting Period'.

Calculating claim settlement for a senior pet

As mentioned in your terms and conditions, for senior pets aged 8 years and over; a 15% co-payment will apply to each and every claim payment for Veterinary Fees, Special Diet and Complementary Medicine, which is in addition to the applicable standard Excess. The co-payment will be calculated as 15% of the treatment cost remaining after your Excess and any other deductions (where applicable) have been subtracted.

Here are some examples to better illustrate this.

Scenario: Truffle is aged over 8 at time of treatment so 15% co-payment applies. His owner has chosen a Premier policy (£2,000 per condition per year) and an Excess of £69 which is payable once only per unrelated condition.

Claim number 1

Truffle has unfortunately developed cruciate disease and has undergone surgery. A claim is submitted with a veterinary bill of £1,500. The settlement is broken down as follows:

Total amount claimed	£1,500.00
Miscellaneous Deductions (e.g. for chew toy included on invoice in error)	-£7.00
Excess to be deducted	-£69.00
Balance after the deductions above	£1,424.00
Co-payment to be deducted (this is calculated as 15% of the total treatment cost claimed after the above deductions have been applied) i.e., 15% of £1,424 in this example	-£213.60
Settlement amount (£1,424 - £213.60)	£1,210.40
Available Benefit Limit per condition	£2,000.00
Benefit remaining for this condition in this policy year (£2,000 - £1,210.40)	£789.60

Claim number 2

Truffle has required some further surgery for his cruciate disease within the same policy year. A 'continuation claim' is submitted for a treatment cost of £1,200 (e.g., treatment cost has exceeded benefit remaining for this condition in this policy year). The settlement is broken down as follows:

Total amount claimed	£1,000.00
Miscellaneous Deductions	-£0.00
Excess to be deducted (no excess applied as collected with first claim for this condition)	-£0.00
Balance after the deductions above	£1,000.00
Co-payment to be deducted (this is calculated as 15% of the total treatment cost claimed after the above deductions have been applied) i.e., 15% of £1,000 in this example	-£150.00
Balance after co-payment applied (£1,000 - £150)	£850.00
Available Benefit Limit remaining following first claim	£789.60
Amount of treatment cost not claimable as exceeds available Benefit Limit	-£60.40
Settlement amount (£1,424 - £213.60)	£789.60
Benefit remaining for this condition in this policy year (benefit is fully recharged at each renewal).	£0.00

Claim number 3

Truffle's policy has now renewed for another year and his policy Benefit Limits have been fully recharged. A further 'continuation claim' is submitted for a treatment cost of £500. The settlement is broken down as follows:

Total amount claimed	£500.00
Miscellaneous Deductions	-£0.00
Excess to be deducted (no excess applied as collected with first claim for this condition)	-£0.00
Balance after the deductions above	£500.00
Co-payment to be deducted (this is calculated as 15% of the total treatment cost claimed after the above deductions have been applied) i.e., 15% of £500 in this example	-£75.00
Balance after co-payment applied (£500 - £75)	£425.00
Settlement amount	£425.00
Available Benefit Limit per condition	£2,000.00
Benefit remaining for this condition in this policy year (£2,000 - £425).	£1,575.00

Lumps, growths, masses, and tumours

Lumps (which might also be referred to as “growths”, “masses” or “tumours”) that are considered to be of the same ‘type’ are treated as the same condition. Here are some examples of how this would apply in the context of the policy wording:

- Betty the cat had a mast cell tumour (a cancerous lump) removed from her foot before her policy started. Unfortunately, a further mast cell tumour appeared on her face after her Vetsure policy commenced. As the type of lump is the same, this condition would be considered as ‘pre-existing’ and excluded from cover.
- Betty later develops a lipoma (a non-cancerous fatty lump) on her chest. As Betty has no history of such fatty lumps prior to the policy commencing this is NOT classed as a pre-existing condition and should be covered.
- Barley the Labrador has several growths on different parts of his body and his Vet is concerned and removes them all under general anaesthetic. Barley has no history of lumps of any kind prior to his Vetsure Premier Plus (£5,000 per condition per year) policy starting. The Vet finds most of the lumps to be lipoma (non-cancerous fatty lumps), but one is different and is diagnosed a sarcoma (a cancerous lump).

The lipoma and the sarcoma are two different types of lump and, as such, are considered as two separate, unrelated conditions. This means that one Excess will be collected for each. It also means that Barley’s owner has £5,000 available for each of these two conditions each policy year.

Direct Claims

Thank you for choosing a Vetsure policy for your pet! We, like you, hope that your pet leads a happy, healthy life and you do not need to make a claim for their treatment, but if you do, we want to ensure the process is as easy and hassle free as possible so you can concentrate on just getting them feeling better.

One of the major benefits of using your Vetsure policy at a Vetsure-accredited veterinary clinic is that you can be assured that they will offer a ‘direct claim’ facility. This will mean that you will only need to pay any excess contribution due up-front and the balance for any eligible claims will be paid direct to your vet!

You are of course welcome to use any veterinary clinic of your choosing, but if they are not Vetsure accredited ‘direct claims’ will be offered at their discretion.
